Accreditation Council for Business Schools and Programs (ACBSP)
Quality Assurance (QA) Report
for
Baccalaureate/Graduate Degree Programs
Current as of July 2012

Overview (O) 1. Complete all information requested.

Submit your report as an attachment to reports@acbsp.org on or before February 15th or September 15th.

This report should be limited to maximum of 50 pages. The average length of most good reports is 30 pages. To help reduce the page numbers you can remove the ACBSP examples used in this report template to help you complete the report.

O 2. **Institution Name:** Athens State University **Date:** September 15, 2013
Address: 300 North Beaty Street Athens, AL 35611

O 3. **Year Accredited/Reaffirmed:** 1998 / 2006 **This Report Covers Years:** 2009, 2010, 2011, 2012, 2013

O 4. List All Accredited Programs (as they appear in your catalog):

Note: Listing new programs here does not confer accreditation. New degree programs, majors or emphases must be in effect for at least two years and have graduates and follow the guidance in the process book before accreditation will be granted

Bachelor of Science degree with majors in:

Accounting	Acquisition & Contract Management
Enterprise Systems Management	Human Resource Management
Logistics & Supply Chain Management	Management
Management of Technology	

O 5. List all programs that are in your business unit that are not accredited by ACBSP and how you distinguish accurately to the public between programs that have achieved accredited status and those that have not.

Not applicable. All College of Business programs are accredited by ACBSP.

O 6. List all campuses that a student can earn a business degree from your institution:

Athens State University - Main Campus (Athens, AL)

O 7. Person completing report Name: Dr. Thomas Pieplow, Interim Dean

Phone: 256-216-5366

E-mail address: Thomas.Pieplow@athens.edu

ACBSP Champion name: Dr. Mike Haghighi

ACBSP Co-Champion name: Professor John Berzett

O 8. Conditions or Notes to be Addressed:

Please explain and provide the necessary documentation/evidence for addressing each condition or note since your last report.

Are you requesting the Board of Commissioners to remove notes or conditions (if the justification for removal is lengthy consider attaching an appendix to QA report): No. Note was removed through the Quality Assurance Report submitted in September, 2011.

Remove Note: N/A

Remove Condition: N/A

Do not remove note or condition. Explain the progress made in removing the note or condition:

O 9. The business unit must routinely provide reliable information to the public on their performance, including student achievement such as assessment results.

Describe how you routinely provide reliable information to the public on your performance, including student achievement such as assessment results and program results.

The College of Business draws from a variety of institutional documents and reports in communicating its performance and achievements to the public. In addition, in coordination with the Office of Public Relations, Marketing, and Publications, the College pursues media coverage of outstanding student and/or faculty accomplishments.

1. The College of Business posts an *Annual Performance Summary Report* in its website. In addition to providing data on student achievement and learning outcomes, this report provides information on operational outcomes associated with the college's organizational performance to include selective effectiveness and efficiency metrics related to enrollment, faculty, and management of academic programs. http://www.athens.edu/college_business/pdfs/CHEA-Annual-Performance-Summary.pdf
2. The *Quality Assurance Report* is available in electronic format on the Athens State University's College of Business website. www.athens.edu/college_business/
3. University Communications: (A) *The Campus Newsletter*, Athens State University's monthly email campus newsletter, keeps our Faculty and Staff apprised of what is happening on campus and in the lives of their colleagues. Other members of the Athens State family (alumni, emeriti and friends) may receive this newsletter if they subscribe to it.
(B) *The Alumni Newsletter*, mailed annually to members of the Athens State University Alumni Association, lists campus events, faculty and staff achievements, and success stories from other alumni members. This newsletter is mailed to approximately 250 recipients.
(C) *Columns Newsletter*, Athens State University's bi-annual publication to all constituencies of the University – alumni, friends, faculty, staff and the surrounding communities. It highlights Athens State's accomplishments and upcoming goals and projects.
(D) *Strictly Business*, an annual newsletter published by the College of Business. http://www.athens.edu/college_business/pdfs/COB_Newsletter.pdf
(E) *The Athenian*, Athens State University's student newspaper. www.athens.edu/students/athenian.php (F) the *Economic Newsletter* http://www.athens.edu/about/pdfs/economic_impact.pdf; and (G) the *Business Research Journal* www.athens.edu/business-journal/2013/index.php.
4. *The Athens State University Annual Report*, prepared by the Office of Public Relations, Marketing and Publications, features accomplishments of the University and its graduates, the contributions made by the University to the community, and financial data for the institution and the Athens State University Foundation. This report is available in electronic format available in the University's website and in printed format distributed to a variety of internal and external constituencies. <http://www.athens.edu/pdfs/2012-Annual-Report.pdf>
5. *President's/Dean's List* (also reported in area newspapers). www.athens.edu/students/honors.php

Standard #1 Leadership

Organization

- a. List any organizational or administrative personnel changes within the business unit since your last report.

There were no organizational or administrative personnel changes up to the end of AY 2012-2013. Effective September 2013, upon the retirement of the current Dean, Dr. Linda Shonesy, Dr. Tom Pieplow, Associate Professor of Logistics, will serve as Interim Dean. An active search for the new Dean is underway.

Please see Table I under Standard 5 for listing of new faculty.

- b. List all new sites where students can earn an accredited business degree (international campus, off-campus or on campus, on-line) that have been added since your last report?

No new sites added since the last report of September 2011.

Standard #2 Strategic Planning (this standard not typically addressed in the QA report) This is used as a place holder to allow all the other standards to be addressed in the QA report and keep the numbering system consistent with self-studies and QA reports.

The College of Business maintains a comprehensive and coordinated planning, budgeting, and evaluation system to support the institutional effectiveness process. These integrated functions aim at enhancing the College's ability to identify areas of strength and weakness, prioritize goals, make evidence-based financial decisions, focus on continuous improvement, and enhance its accountability to stakeholders.

The college-level planning process is fully aligned with the institution's strategic planning efforts. Two planning documents, *Vision 2020*, Athens State University's 10-Year Master Plan and the *3-Year Strategic Plan*, provide the foundation for the formulation and assessment of goals and objectives and administrative decisions. Currently, the *2012-2015 Strategic Plan*, conceptualizes and sets a course of action to pursue and achieve institutional goals through 2015. A report assessing the progress of the plan is submitted annually. Please see the *2012-13 College of Business Strategic Plan Progress Report* in Appendix A.

As an academic organization, the College of Business is recognized for its impact on institutional effectiveness and therefore, it is required to identify a set of performance indicators/outcomes, measured through the institutional assessment process. All performance metrics for the College are featured in the Institutional Effectiveness Matrix, linking performance indicators to university goals. Measurable outcomes for the College of Business include (1) Student Learning Outcomes, which reflect students' demonstrated success in achieving the knowledge, skills, and abilities (KSA) or other competencies as a result of having gone through the curriculum; and (2) Program-Operational Outcomes, which reflect the effectiveness of the administrative function of academic programs as executed by department chairs, deans, and the Provost/Vice President for Academic Affairs; and (3) Service Delivery Outcomes, which measure the quality of services provided on two dimensions: (a) the quality/relevance of the service itself (effectiveness), and (b) the efficiency in the delivery of the service. Quality ratings and users' satisfaction with the services are measured at two points in time: (1) at time of service, and at time of graduation.

At the end of the assessment cycle, the College of Business conducts an in-depth analysis of data findings and develops action plans to address weaknesses identified through the process. Corrective actions are categorized through a set of standardized codes that define specific actions taken by programs based on assessment findings. Assessment findings and action plans are submitted to the Office of Institutional Planning, Research, and Assessment (OIPRA) pursuant to University policy and become an official record of the College's performance and continuous improvement efforts.

Standard #3 Student and Stakeholder Focus

ANALYSIS OF RESULTS																																			
Performance Measure	Measurement Instrument or Process	Current Results	Analysis of Results	Action Taken or Improvement Made	Insert Graphs or Tables of Resulting Trends																														
3.A. Student Satisfaction with the Academic Environment, Campus Environment, and Student Support Services will achieve a minimum mean score of 4.0/5.0. (1=Low; 5=High)	<p>The <i>Graduating Senior Exit Survey (GSES)</i>, applied every term at the time that a student applies for graduation, focuses on all elements that comprise the student's entire experience within the institution to include academics, university life, support services, self assessment of entering and exiting competencies, and confidence in their overall education.</p> <p><u>Type of Assessment:</u> Indirect; Internal; Summative</p> <p><u>Data Timeframe:</u> Academic Year</p>	<p>All elements combined comprising the academic (n=16) and campus (n=8) environments and selected individual student support services (n=7) achieved mean scores higher than 4.0 during the last five assessment cycles, indicating high/somewhat high student satisfaction among business graduating seniors.</p> <p>For the last three years, student satisfaction with the quality of teaching by faculty in their major area of study (an element of the academic environment), achieved the highest mean score among all elements of the academic environment.</p>	<p>Although the target outcome was met, a detailed analysis of the individual components within each environment indicated a lower student satisfaction (3.96, 4.12, and 3.96) in the element of class size during the 2011 to 2013 assessment cycles. However, business seniors' satisfaction with class size exceeded all seniors in the institution by 0.18 during the last three assessment cycles.</p>	<p>The College of Business took steps to reduce class size, including the addition of qualified adjunct faculty. Accordingly, as of Spring 2013, 97% of classes had 30 or fewer students enrolled. The COB has formulated a goal of a maximum of 25 students per class for AY 2014. Please refer to Student Faculty Ratio under Standard 6, Performance Measure 6.D.</p>	<div><p>College of Business Graduating Senior Satisfaction</p><table><thead><tr><th>Year</th><th>Academic Environment</th><th>Campus Environment (University Life)</th><th>Selected Student Services *</th><th>Quality of teaching by faculty in your major</th></tr></thead><tbody><tr><td>2009 n=312</td><td>4.54</td><td>4.54</td><td>4.65</td><td>4.73</td></tr><tr><td>2010 n=337</td><td>4.25</td><td>4.32</td><td>4.38</td><td>4.52</td></tr><tr><td>2011 n=394</td><td>4.25</td><td>4.25</td><td>4.30</td><td>4.49</td></tr><tr><td>2012 n=389</td><td>4.39</td><td>4.43</td><td>4.48</td><td>4.58</td></tr><tr><td>2013 n=380</td><td>4.36</td><td>4.34</td><td>4.40</td><td>4.59</td></tr></tbody></table><p>* Selected Student Services Include: Admissions, Transfers and Advising, Enrollment/Registration, Financial Aid, and Website.</p></div>	Year	Academic Environment	Campus Environment (University Life)	Selected Student Services *	Quality of teaching by faculty in your major	2009 n=312	4.54	4.54	4.65	4.73	2010 n=337	4.25	4.32	4.38	4.52	2011 n=394	4.25	4.25	4.30	4.49	2012 n=389	4.39	4.43	4.48	4.58	2013 n=380	4.36	4.34	4.40	4.59

ANALYSIS OF RESULTS																																									
Performance Measure	Measurement Instrument or Process	Current Results	Analysis of Results	Action Taken or Improvement Made	Insert Graphs or Tables of Resulting Trends																																				
3.B. The overall instructional quality (Course Quality and Instructor's Teaching Effectiveness) of all business courses will achieve a minimum mean score of 4.0/5.0. (Low=1; High=5)	<p>The Faculty Course Evaluation (FCE) survey, administered in every business course at the end of every semester, captures student input on 18 elements associated with instructional quality that includes instructional delivery, depth and relevance of the course material, instructor's approach to teaching, student engagement and participation in the course, and classroom support resources.</p> <p><u>Type of Assessment:</u> Indirect; Internal; Summative</p> <p><u>Data Timeframe:</u> Academic Year</p>	<p>Over the last five assessment cycles, all business courses exceeded the expected target outcome.</p> <p>Students' ratings of the <u>Overall Course Quality</u> of business courses increased by 0.5 from 2009 to 2013 (4.27 to 4.32). COB ratings slightly exceeded, or were the same as that of the institution for 2011, 2012, and 2013.</p> <p>Students' rating of the <u>Instructor's Teaching Effectiveness</u> of business faculty showed consistent increase from 2009 to 2012 and a slight decrease in 2013. Mean scores for COB faculty on this metric slightly exceeded the institution as a whole.</p>	<p>Students' quality ratings for business courses remains stable and relatively strong.</p>	<p>Since 2009 business faculty have been developing annual individual improvement plans resulting in an increase in students' ratings of course quality for the five-year period.</p> <p>Faculty course evaluations from students are on-going and monitored to identify fluctuations in students' ratings of course and instructors attributes and appropriate actions are taken as needed.</p> <p><i>Note: Currently, the Faculty Course Evaluation (FCE) is being reviewed and modifications to the questionnaire are expected. Target outcomes will be modified accordingly once the new instrument is approved.</i></p>	<table><caption>Student Satisfaction with Overall Instruction - College of Business Courses</caption><thead><tr><th>Year</th><th>The overall quality of the course</th><th>The instructor's teaching effectiveness</th></tr></thead><tbody><tr><td>2009</td><td>4.27</td><td>4.21</td></tr><tr><td>2010</td><td>4.26</td><td>4.23</td></tr><tr><td>2011</td><td>4.3</td><td>4.25</td></tr><tr><td>2012</td><td>4.32</td><td>4.27</td></tr><tr><td>2013</td><td>4.32</td><td>4.26</td></tr></tbody></table>	Year	The overall quality of the course	The instructor's teaching effectiveness	2009	4.27	4.21	2010	4.26	4.23	2011	4.3	4.25	2012	4.32	4.27	2013	4.32	4.26

3.C. COB graduating seniors' confidence in their education to successfully pursue employment or advanced studies will achieve a minimum mean score of 4.0/5.0 (1=Low; 5=High)	<p>The Graduating Senior Exit Survey (GSES), applied every term at the time that a student applies for graduation, contains a series of questions capturing student confidence as evidence of perceived value of their business education.</p> <p><u>Type of Assessment:</u> Indirect; Internal; Summative</p> <p><u>Data Timeframe:</u> Academic Year</p>	<p>All four indicators of student confidence in their ability to pursue future job and/or education plans achieved mean scores higher than 4.0 among business graduating seniors, slightly exceeding the confidence level of all graduating seniors combined.</p> <p>The data shows consistent student confidence that future career and/or postgraduate educational plans are within reach, indicating perceived value of the business education received.</p>	<p>Findings from selected questions from the Graduating Senior Exit Survey are used in conjunction with results from the Graduate Follow Up Survey (GFS), which tracks graduates' actual job and postgraduate education as well as effectiveness ratings of various components of their undergraduate education on job performance.</p> <p>Data from the 2013 GFS (n=126) indicate that 88.3% of business graduates rated their overall education as effective (high/somewhat high) in assisting them perform their job successfully.</p>	<p>Adjustments are made accordingly should data from the GFS show major discrepancies between respondents' opinions before and after graduation.</p>	<table><caption>College of Business Graduating Seniors Confidence in Education</caption><thead><tr><th>Year</th><th>n</th><th>Ability to perform effectively on the job</th><th>Ability to pursue graduate studies successfully</th><th>Ability to get job in major area or advance to better position</th><th>Overall educational background from ASU</th></tr></thead><tbody><tr><td>2009</td><td>312</td><td>4.50</td><td>4.48</td><td>4.47</td><td>4.55</td></tr><tr><td>2010</td><td>337</td><td>4.55</td><td>4.45</td><td>4.42</td><td>4.57</td></tr><tr><td>2011</td><td>394</td><td>4.50</td><td>4.55</td><td>4.44</td><td>4.54</td></tr><tr><td>2012</td><td>389</td><td>4.57</td><td>4.51</td><td>4.46</td><td>4.60</td></tr><tr><td>2013</td><td>380</td><td>4.53</td><td>4.47</td><td>4.46</td><td>4.54</td></tr></tbody></table>	Year	n	Ability to perform effectively on the job	Ability to pursue graduate studies successfully	Ability to get job in major area or advance to better position	Overall educational background from ASU	2009	312	4.50	4.48	4.47	4.55	2010	337	4.55	4.45	4.42	4.57	2011	394	4.50	4.55	4.44	4.54	2012	389	4.57	4.51	4.46	4.60	2013	380	4.53	4.47	4.46	4.54

ANALYSIS OF RESULTS																																																																																																																													
Performance Measure	Measurement Instrument or Process	Current Results	Analysis of Results	Action Taken or Improvement Made	Insert Graphs or Tables of Resulting Trends																																																																																																																								
3.D. Employment status and Continuing Education metrics of business graduates will show: a) at least 80% will be employed in a full time position a year after graduation; b) at least 60% will be employed in areas related to their major within the same period; c) at least 25% of graduates will pursue graduate, professional, or advanced studies or certifications.	<p>The <i>Graduate Follow-Up Survey (GFS)</i>, administered biennially to students within one to two years after graduation, captures among other things graduates' employment status, postgraduate education plans, and effectiveness ratings of selected knowledge, skills and abilities acquired through the curriculum as they relate to their current job performance.</p> <p><u>Type of Assessment:</u> Indirect; Internal; Summative</p> <p><u>Data Timeframe:</u> Biennial (up to two years after graduation)</p>	<p>(a) (b) Over 90% of COB respondents are employed in full time positions one to two years after graduation and over 50% are employed in positions related to their area of major. Comparisons against institutional data show COB graduates outperforming all graduates in regard to full time employment and overall compensation.</p> <p>(c) The percentage of business graduates that have completed or are currently pursuing post graduate studies increased by 10.2 percentage points, while consideration of such pursuit decreased by 13.8 percentage points.</p> <p>Comparative analysis of 2011 to 2013 data indicates a decrease of 6.3 percentage points in the number of respondents that are employed in positions directly related to their major area of study.</p>	<p>Although it is premature to reach conclusions on the data at this time, the decrease in considering pursuing further studies may be associated with increasing tuition costs and a slight improvement in the unemployment rate.</p> <p>Although the decrease in the number of graduates holding positions associated with their major appears to be consistent with local market conditions across the board, the College of Business, in coordination with Career Services and the Office of Institutional Planning, Research and Assessment (OIPRA) will continue monitoring graduates' data trends to identify possible areas of action that can be taken.</p> <p>In its commitment to the encouragement of its graduates to pursue further education, the College of Business is engaged in a series of strategic initiatives to expand the educational opportunities of its graduates.</p>	<p>One of several strategic initiatives to encourage students' pursuit of post graduates studies culminated in a signed agreement between the colleges of business at Athens State University and the University of North Alabama (UNA) to offer UNA's MBA program at Athens campus. Graduate courses, taught by UNA faculty, were first offered at Athens State in Spring 2013. The appropriate documentation was submitted to and approved for implementation by the Southern Association of Colleges and Schools (SACS) in December 2012.</p> <p>The graduate program is open to all qualified individuals and not just Athens State University graduates. Enrollment for Fall 2012 and Spring 2013 totals 8 and 7 students, respectively.</p>	<div><p>Employment Status of Graduates College of Business and Institution</p><table><thead><tr><th></th><th>Spring 2009</th><th>Spring 2011</th><th>Spring 2013</th></tr></thead><tbody><tr><td>Employed - Institution</td><td>94.8%</td><td>83.7%</td><td>78.7%</td></tr><tr><td>Employed - COB</td><td>95.2%</td><td>91.7%</td><td>81.6%</td></tr><tr><td>Employed Full Time - Institution</td><td>89.7%</td><td>79.3%</td><td>87.9%</td></tr><tr><td>Employed Full Time - COB</td><td>95.2%</td><td>88.9%</td><td>93.1%</td></tr><tr><td>Employed in Area of Major - Institution</td><td>65.5%</td><td>56.5%</td><td>53.2%</td></tr><tr><td>Employed in Area of Major - COB</td><td>76.2%</td><td>58.3%</td><td>52.0%</td></tr></tbody></table></div> <div><table><thead><tr><th rowspan="2">Graduates - Annual Compensation</th><th colspan="2">Spring 2009</th><th colspan="2">Spring 2011</th><th colspan="2">Spring 2013</th></tr><tr><th>\$20K + %</th><th>\$50K + %</th><th>\$20K + %</th><th>\$50K + %</th><th>\$20K + %</th><th>\$50K + %</th></tr></thead><tbody><tr><td>Institution</td><td>91%</td><td>24%</td><td>88%</td><td>23%</td><td>86%</td><td>47%</td></tr><tr><td>College of Business (All Majors)</td><td>100%</td><td>45%</td><td>97%</td><td>45%</td><td>93%</td><td>54%</td></tr><tr><td>Accounting</td><td>100%</td><td>67%</td><td>90%</td><td>30%</td><td>94%</td><td>50%</td></tr><tr><td>Acquisitions & Contract Management</td><td>N/A</td><td>N/A</td><td>N/A</td><td>N/A</td><td>50%</td><td>0%</td></tr><tr><td>Enterprise Systems Management</td><td>N/A</td><td>N/A</td><td>N/A</td><td>N/A</td><td>100%</td><td>100%</td></tr><tr><td>Human Resource Management</td><td>100%</td><td>50%</td><td>100%</td><td>67%</td><td>100%</td><td>33%</td></tr><tr><td>Logistics & Supply Chain Management</td><td>N/A</td><td>N/A</td><td>N/A</td><td>N/A</td><td>50%</td><td>50%</td></tr><tr><td>Management</td><td>100%</td><td>33%</td><td>100%</td><td>25%</td><td>89%</td><td>46%</td></tr><tr><td>Management of Technology</td><td>100%</td><td>50%</td><td>100%</td><td>100%</td><td>96%</td><td>75%</td></tr></tbody></table></div> <div><p>College of Business Graduates Continuing Education</p><table><thead><tr><th></th><th>Spring 2009</th><th>Spring 2011</th><th>Spring 2013</th></tr></thead><tbody><tr><td>Have considered pursuing post graduate studies</td><td>38.1%</td><td>58.3%</td><td>44.4%</td></tr><tr><td>Pursuing and/or completed post graduate studies</td><td>38.1%</td><td>22.3%</td><td>32.5%</td></tr><tr><td>n</td><td>21</td><td>36</td><td>126</td></tr></tbody></table></div>		Spring 2009	Spring 2011	Spring 2013	Employed - Institution	94.8%	83.7%	78.7%	Employed - COB	95.2%	91.7%	81.6%	Employed Full Time - Institution	89.7%	79.3%	87.9%	Employed Full Time - COB	95.2%	88.9%	93.1%	Employed in Area of Major - Institution	65.5%	56.5%	53.2%	Employed in Area of Major - COB	76.2%	58.3%	52.0%	Graduates - Annual Compensation	Spring 2009		Spring 2011		Spring 2013		\$20K + %	\$50K + %	\$20K + %	\$50K + %	\$20K + %	\$50K + %	Institution	91%	24%	88%	23%	86%	47%	College of Business (All Majors)	100%	45%	97%	45%	93%	54%	Accounting	100%	67%	90%	30%	94%	50%	Acquisitions & Contract Management	N/A	N/A	N/A	N/A	50%	0%	Enterprise Systems Management	N/A	N/A	N/A	N/A	100%	100%	Human Resource Management	100%	50%	100%	67%	100%	33%	Logistics & Supply Chain Management	N/A	N/A	N/A	N/A	50%	50%	Management	100%	33%	100%	25%	89%	46%	Management of Technology	100%	50%	100%	100%	96%	75%		Spring 2009	Spring 2011	Spring 2013	Have considered pursuing post graduate studies	38.1%	58.3%	44.4%	Pursuing and/or completed post graduate studies	38.1%	22.3%	32.5%	n	21	36	126

3.E. Graduates' ratings of the effectiveness of ASU education components on job performance will achieve a mean score of at least 4.0/5.0. (Low=1; High=5)	<p>The <i>Graduate Follow-Up Survey (GFS)</i>, administered biennially to students within one to two years after graduation, captures among other things graduates' employment status, postgraduate education plans and enrollment status, and effectiveness ratings of selected knowledge, skills and abilities acquired through the curriculum as they relate to their current job performance.</p> <p><u>Type of Assessment:</u> Indirect; Internal; Summative</p> <p><u>Data Timeframe:</u> Biennial</p>	<p>All selected education components (KSAs) but one achieved a mean score of 4.0 or above in Spring 2013. Graduates' rating of the effectiveness of acquired knowledge as it relates to their job decreased by 0.42 representing 61.2% of survey respondents that gave high/somewhat high ratings on this metric.</p> <p>Further item analysis indicates some inconsistency in the data. While 61.2% of respondents rated "acquired knowledge" as effective or somewhat effective in terms of their job, 88.3% rated their "overall education" as effective (high/somewhat high) in assisting them perform their job successfully.</p>	<p>Further analysis indicated higher ratings for this metric among less recent graduates. Among most recent graduates (2010-2013) the knowledge variable achieved a mean score of 3.67, increasing to 3.97 among 2009 and earlier grads. Among those graduating before 2005, perceived effectiveness of their knowledge as it relates to job performance achieved the highest mean score of all groups (4.02).</p> <p>Although further research is needed for conclusive evidence, the data suggests that with increased time after graduation (presumably more experience on the job), respondents' feel more confident about their knowledge to do their job successfully.</p> <p>In the interpretation of this metric, there is a possibility that the transition from theoretical to job-specific knowledge, typical of recent graduates (one-to-two years out), may have played a role in respondents' ratings.</p>	<p>Although no specific action is being taken at this time, tracking data on graduates to the extent that is possible continues to be pursued by the COB.</p> <p>Evidence-based data on students' knowledge of concepts in both business core and major-specific concepts and applications remains the top assessment priority.</p>	<div><p>College of Business Graduates Rating of Effectiveness of Education from ASU</p><table><thead><tr><th>Skill</th><th>Spring 2009 (n=16)</th><th>Spring 2011 (n=21)</th><th>Spring 2013 (n=103)</th></tr></thead><tbody><tr><td>Knowledge of concepts in your major</td><td>4.00</td><td>4.24</td><td>3.82</td></tr><tr><td>Written and oral communication skills</td><td>4.25</td><td>4.48</td><td>4.14</td></tr><tr><td>Analytical and problem-solving skills</td><td>4.31</td><td>4.29</td><td>4.15</td></tr><tr><td>Computer proficiency</td><td>3.88</td><td>4.33</td><td>4.08</td></tr><tr><td>Ability to work with others</td><td>4.13</td><td>4.40</td><td>4.31</td></tr><tr><td>Time management skills</td><td>4.57</td><td>4.52</td><td>4.28</td></tr><tr><td>Overall education from ASU</td><td>4.31</td><td>4.43</td><td>4.32</td></tr></tbody></table></div>	Skill	Spring 2009 (n=16)	Spring 2011 (n=21)	Spring 2013 (n=103)	Knowledge of concepts in your major	4.00	4.24	3.82	Written and oral communication skills	4.25	4.48	4.14	Analytical and problem-solving skills	4.31	4.29	4.15	Computer proficiency	3.88	4.33	4.08	Ability to work with others	4.13	4.40	4.31	Time management skills	4.57	4.52	4.28	Overall education from ASU	4.31	4.43	4.32

Standard #4 Measurement and Analysis of Student Learning and Performance

a. Program Outcomes

BS Degree Level: (1) Accounting; (2) Acquisition and Contract Management; (3) Enterprise Systems Management; (4) Human Resources Management; (5) Logistics and Supply Chain Management; (6) Management; and (7) Management of Technology.

Program Outcomes: Graduates of the College of Business will meet specific criteria established by the faculty as it relates to the following learning outcomes:

1. Knowledge of fundamental concepts and practices in core areas of major. (Body of Knowledge)
2. Proficiency in the use of technology as it relates to business.
3. Knowledge and understanding of the global economy to include societal, cultural, and global differences.
4. Knowledge and ability to use effective managerial, leadership, and group interaction techniques.
5. Ability to apply critical-thinking and decision-making techniques.
6. Proficiency in written and oral communication.
7. Understanding and appreciation of ethical issues and standards.

Each outcome is measured quantitatively and qualitatively through a variety of direct and indirect methods of assessment throughout the curriculum involving formative and summative techniques. Corrective plans of action are developed based on assessment findings and further assessed for performance. All College of Business assessment activities are documented through the Annual Assessment Plan (AAP), the Annual Assessment Report (AAR) and the Action Plan (AP) located in the Athens State University Assessment Management Online System (AMOS). Consolidated Assessment Plans for AY 2013 are due September 30, 2013.

Standard #4 Measurement and Analysis of Student Learning and Performance - 4 b. Performance Results

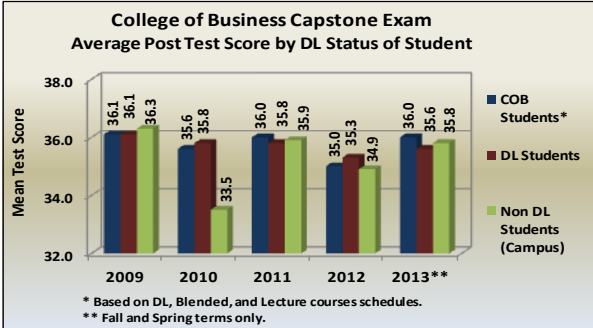

ANALYSIS OF RESULTS																																																					
Performance Measure	Measurement Instrument or Process	Current Results	Analysis of Results	Action Taken or Improvement Made	Insert Graphs or Tables of Resulting Trends																																																
<p>4.A. Business Program Outcomes:</p> <p>At least 80% of business students will demonstrate acceptable or higher level of proficiency in the 7 Knowledge, Skills, and Abilities (KSA) outcomes established by the College of Business. (Business Program-All Majors)</p>	<p><u>Data summary from student performance records</u> (aggregated assessments throughout the curriculum using common rubrics) and the Business Program Capstone Exit Exam.</p> <p><u>Type of Assessment:</u> Direct; Internal; Comparative; Combination of formative and summative assessments.</p> <p><u>Data Timeframe:</u> Academic Year (term aggregated data)</p>	<p>The percentage of students achieving pre-determined criteria in each KSA ranged from 81% to 97%, exceeding the expected target throughout the last 5 annual assessment cycles (2009-2013).</p> <p>During 2011-2013, the highest increases in the percentage of students meeting the outcome criteria were achieved in the areas of technology proficiency and appreciation of ethical standards (8 and 5 percentage points, respectively). Course revisions and pedagogical changes are credited for the increase.</p>	<p>Although outcomes were met throughout the 2011-2013 cycles, two areas showed the largest decrease in the percentage of students meeting the criteria: understanding of cultural/global differences and written communication, 5 and 10 percentage points, respectively.</p> <p>At this time, the reasons behind the decrease in the percent of students meeting the criteria for cultural/global differences is not clear since up until the previous assessment cycle (2012), student performance was high in this area.</p> <p>Given that written communication skills were consistently improving up until 2012, the decrease in the percentage of students meeting the criteria may be attributed to the adoption of a new rubric used to assess this skill in 2013.</p> <p>Additional data obtained through the College Level Writing Rubric is needed before conclusions can be reached.</p>	<p>Results of student performance in all KSA components are shared with the faculty for appropriate action. Reviews of courses and/or assessment instruments will be conducted and modifications will be made as needed.</p>	<table border="1"> <caption>College of Business Assessment of Learning Outcomes Data</caption> <thead> <tr> <th>Knowledge, Skill, and Ability (KSA)</th> <th>2009</th> <th>2010</th> <th>2011</th> <th>2012</th> <th>2013</th> </tr> </thead> <tbody> <tr> <td>Core Knowledge</td> <td>92%</td> <td>88%</td> <td>88%</td> <td>87%</td> <td>87%</td> </tr> <tr> <td>Written Communication</td> <td>90%</td> <td>94%</td> <td>94%</td> <td>95%</td> <td>87%</td> </tr> <tr> <td>Oral Communication</td> <td>88%</td> <td>95%</td> <td>94%</td> <td>96%</td> <td>96%</td> </tr> <tr> <td>Technology Proficiency</td> <td>81%</td> <td>89%</td> <td>93%</td> <td>97%</td> <td>97%</td> </tr> <tr> <td>Critical/Analytical Thinking</td> <td>85%</td> <td>93%</td> <td>94%</td> <td>91%</td> <td>91%</td> </tr> <tr> <td>Ethical Standards</td> <td>92%</td> <td>93%</td> <td>94%</td> <td>96%</td> <td>96%</td> </tr> <tr> <td>Cultural Differences</td> <td>83%</td> <td>85%</td> <td>94%</td> <td>95%</td> <td>85%</td> </tr> </tbody> </table>	Knowledge, Skill, and Ability (KSA)	2009	2010	2011	2012	2013	Core Knowledge	92%	88%	88%	87%	87%	Written Communication	90%	94%	94%	95%	87%	Oral Communication	88%	95%	94%	96%	96%	Technology Proficiency	81%	89%	93%	97%	97%	Critical/Analytical Thinking	85%	93%	94%	91%	91%	Ethical Standards	92%	93%	94%	96%	96%	Cultural Differences	83%	85%	94%	95%	85%

Standard #4 Measurement and Analysis of Student Learning and Performance - 4 b. Performance Results

ANALYSIS OF RESULTS

Performance Measure	Measurement Instrument or Process	Current Results	Analysis of Results	Action Taken or Improvement Made	Insert Graphs or Tables of Resulting Trends																																																																																																					
4.B. Business Pre/Post Test (Exit Exam) Scores: a) Students will demonstrate proficiency in general business core competencies established by the College by scoring at least 30 points (or 70%) on the Business Post test (Capstone exam). b) Students will show improvement of at least 5 points in scores from the Business Pre Test (given early in the program) to the Business Post Test (given in the Capstone course). c) Business Post Test results will be comparable across the following groups: 1) DL and Non-DL students. 2) students in all major programs. <i>Note: A DL student is defined as taking over 50% of course credit hours in a distance learning format.</i>	College of Business Exit Exam (Pre-Post Test protocol: applied as a Pre Test in introductory management courses, MG 320 or GBA 300; and as a Post Test in the Capstone course, MG 420). <u>Type of Assessment:</u> Direct; Internal; Formative (Pre Test); Summative (Post Test); Comparative. <u>Data Timeframe:</u> Academic Year (term aggregated data)	<p>(a) In the last five academic years, the average score on the business post test for all business students ranged from 33 to 38 points or 66% to 76% test score (max=50 points), respectively.</p> <p>Test results by major program also showed the average score exceeding the target outcome of 30 points or 60% (34/68%).</p> <p>As expected, pre/post test improvements vary by business areas with Financial Management and Global/Marketing/Legal areas showing the highest improvement during the 3-Yr cycle. The area of strategic management consistently shows the lowest improvement due to consistently higher pre test scores than any other area.</p> <p>(b) The improvement in the average test score from the pre to post test for all business students taking the COB Capstone Exam in academic years 2011-2013 was 7.61 points, exceeding the 5-point target outcome.</p> <p>At the major level, all but one program showed average improvement in test scores ranging from 5.9 to 7.3, exceeding the target outcome.</p> <p>In the interpretation of these results, caution must be exerted when comparing results between assessment cycles 2008-10 and 2011-13 given that the Capstone Exam has been modified (i.e. question items have been changed, added or deleted). Further data is needed to determine whether changes in the exam questions explain the variation in the last three assessment cycles.</p>	<p>(a) Data findings indicate that proficiency in core competencies as determined by the Common Professional Component (CPC) are being met by students at both the college level and within each major program.</p> <p>(b) Further analysis aimed at identifying the reasons behind the improvement variation in the ESM program (as compared to all other programs) points to the number of majors in the program. With significantly fewer students been assessed, up/down individual results are more likely to impact the aggregated improvement. Currently, the ESM is the smallest program in the COB. As of Fall 2012, FTE in the ESM was 14.7 compared to FTEs from the other business programs which range from a low of 72.0 to a high of 279.7.</p>	<p>Based on 5-yr data trend showing achievement of the 30-points score in the COB Capstone Exam, the target outcome was revised upward to a minimum of 35 points or 70% on the capstone exit exam starting in Fall 2013.</p> <p>Faculty will continue tracking student performance in the Capstone Exam within all majors with a special focus on the ESM program.</p>	<div><p>College of Business Capstone Exam* Average Post Test Score by Major</p><table><thead><tr><th>Year</th><th>College of Business (All Majors)</th><th>Accounting</th><th>Acquisition & Contract Management</th><th>Enterprise Systems Management</th><th>Human Resource Management</th><th>Logistics & Supply Chain Management</th><th>Management</th><th>Management of Technology</th></tr></thead><tbody><tr><td>2009</td><td>36.0</td><td>35.1</td><td>35.0</td><td>36.0</td><td>36.0</td><td>35.3</td><td>35.4</td><td>36.4</td></tr><tr><td>2010</td><td>36.0</td><td>35.0</td><td>36.0</td><td>36.0</td><td>35.3</td><td>35.4</td><td>35.7</td><td>36.3</td></tr><tr><td>2011</td><td>36.0</td><td>35.0</td><td>36.0</td><td>36.0</td><td>35.3</td><td>35.4</td><td>35.7</td><td>36.3</td></tr><tr><td>2012</td><td>37.6</td><td>35.0</td><td>35.6</td><td>34.3</td><td>33.6</td><td>33.2</td><td>35.3</td><td>37.0</td></tr><tr><td>2013**</td><td>36.8</td><td>36.4</td><td>36.0</td><td>34.6</td><td>35.3</td><td>35.3</td><td>35.3</td><td>35.3</td></tr></tbody></table><p>* Maximum possible score = 50. ** Fall and Spring terms only.</p></div> <div><p>COB Capstone Pre-Post Test Improvement by Business Area</p><table><thead><tr><th>Year</th><th>Financial Management</th><th>Strategic Management</th><th>Global/Marketing/Legal</th><th>MIS/Operations Management/Statistics</th></tr></thead><tbody><tr><td>2011</td><td>40.3</td><td>13.4</td><td>17.4</td><td>8.6</td></tr><tr><td>2012</td><td>36.7</td><td>8.6</td><td>19.8</td><td>9.6</td></tr><tr><td>2013</td><td>34.2</td><td>9.6</td><td>16.3</td><td>35.6</td></tr></tbody></table></div> <div><p>College of Business Capstone Exam* Improvement in Pre-Post Test Scores by Major</p><table><thead><tr><th>Assessment Cycle</th><th>College of Business (All Majors)</th><th>Accounting</th><th>Acquisition & Contract Management</th><th>Enterprise Systems Management</th><th>Human Resource Management</th><th>Logistics & Supply Chain Management</th><th>Management</th><th>Management of Technology</th></tr></thead><tbody><tr><td>2008-2010</td><td>9.02</td><td>8.5</td><td>9.0</td><td>9.5</td><td>9.6</td><td>7.61</td><td>6.6</td><td>7.0</td></tr><tr><td>2011-2013**</td><td>7.61</td><td>6.6</td><td>7.0</td><td>7.3</td><td>7.2</td><td>4.4</td><td>5.9</td><td>7.2</td></tr></tbody></table><p>* Tracking of COB Capstone Exam scores by major was initiated in 2011. ** 2013 Fall and Spring terms only.</p></div>	Year	College of Business (All Majors)	Accounting	Acquisition & Contract Management	Enterprise Systems Management	Human Resource Management	Logistics & Supply Chain Management	Management	Management of Technology	2009	36.0	35.1	35.0	36.0	36.0	35.3	35.4	36.4	2010	36.0	35.0	36.0	36.0	35.3	35.4	35.7	36.3	2011	36.0	35.0	36.0	36.0	35.3	35.4	35.7	36.3	2012	37.6	35.0	35.6	34.3	33.6	33.2	35.3	37.0	2013**	36.8	36.4	36.0	34.6	35.3	35.3	35.3	35.3	Year	Financial Management	Strategic Management	Global/Marketing/Legal	MIS/Operations Management/Statistics	2011	40.3	13.4	17.4	8.6	2012	36.7	8.6	19.8	9.6	2013	34.2	9.6	16.3	35.6	Assessment Cycle	College of Business (All Majors)	Accounting	Acquisition & Contract Management	Enterprise Systems Management	Human Resource Management	Logistics & Supply Chain Management	Management	Management of Technology	2008-2010	9.02	8.5	9.0	9.5	9.6	7.61	6.6	7.0	2011-2013**	7.61	6.6	7.0	7.3	7.2	4.4	5.9	7.2

<p>4.C. Students will demonstrate proficiency in major-specific core competencies established by each program by showing improved scores between each major's pre and post test.</p> <p><i>Note: Pre and Post Tests major-specific assessments for all seven programs were initiated in the 2012-13 assessment cycle. Only Accounting (ACC) and Human Resources Management (HRM) had been previously pilot testing the assessment of major-specific learning outcomes.</i></p>	<p>Major-Specific Exit Exams (ACC, ACM, ESM, HRM, LSM, MGT, MOT) using a Pre/Post Test protocol covering fundamental topics within each major discipline, administered in the foundation (pre) and capstone (post) courses within the major (subject code).</p> <p><u>Type of Assessment:</u> Direct; Internal; Formative (Pre Test); Summative (Post Test)</p> <p><u>Data Timeframe:</u> Academic Year (term aggregated data)</p>	<p>The Accounting and Human Resources programs began the assessment of major- specific learning outcomes back in 2010. To date, data shows that 94% and 89% of students in their respective major have shown noticeable improvement in test scores. For the last three assessment cycles (2011-2013), improvement in score points for both programs was 36.9% and 41.7%, respectively.</p> <p>All other programs in the COB began the major-specific assessment of learning outcomes in AY 2013. Logistical problems with the application of the ESM post test generated no data for this period.</p> <p>During the first year of assessing major-specific learning outcomes, all programs achieved improvement, although at varying levels.</p>	<p>As can be expected, the most recently established programs (ACM and LSM) achieved lower improvement. Although additional data is needed, a possible factor influencing the lower improvement rate is that fewer students were tested so individual up/down scores can potentially skew the results.</p> <p>Data for the Management program shows higher pre test scores than other programs, which may explain lower improvement level than other programs in the COB.</p> <p><i>Note: Given the recent implementation of the major-specific exams, data validity cannot be fully established. Therefore, major curricular changes will be considered, as needed, once a reliable data pattern has been established.</i></p>	<p>During 2011 and 2012, department chairs and their respective faculty began the formulation of major-specific target outcomes, designation of courses for pre and post test implementation, and the development of each test.</p> <p>Data from the 2013 initial assessment cycle at the major level have been established as the baseline for future assessments.</p> <p>Item analysis is being conducted for the purpose of (1) evaluating the validity of the test questions; (2) identifying student weaknesses in specific functional areas within major-specific areas; and (3) evaluating content in related courses as needed.</p>	<div><p>Pre-Post Improvement - Major Assessment Exam AY 2013 Baseline</p><table><thead><tr><th>Program</th><th>Average Score Points Improvement</th><th>% Improvement Score Points</th></tr></thead><tbody><tr><td>ACC</td><td>16</td><td>36.9</td></tr><tr><td>ACM</td><td>2</td><td>9.9</td></tr><tr><td>HRM*</td><td>42</td><td>41.7</td></tr><tr><td>LSM</td><td>1</td><td>4.2</td></tr><tr><td>MGT</td><td>6</td><td>20.0</td></tr></tbody></table><p>* Score points in hundreds</p></div>	Program	Average Score Points Improvement	% Improvement Score Points	ACC	16	36.9	ACM	2	9.9	HRM*	42	41.7	LSM	1	4.2	MGT	6	20.0

Standard #4 Measurement and Analysis of Student Learning and Performance - 4 b. Performance Results

ANALYSIS OF RESULTS

Performance Measure	Measurement Instrument or Process	Current Results	Analysis of Results	Action Taken or Improvement Made	Insert Graphs or Tables of Resulting Trends
<p>4.D. At least 80% of graduating business students will report strong or somewhat strong competency in selected knowledge, skills, and abilities (KSAs).</p> <p><i>Note: Given the upper-undergraduate level status of Athens State University, all students are admitted as juniors, having completed their first two years of college at other accredited institutions. Therefore, entering competency levels are higher than what could be expected of freshmen and sophomore students. This perspective is important when making interpretations of improvement between entering and exiting</i></p>	<p>The Graduating Senior Exit Survey (GSES)-Section III, applied every term at the time that a student applies for graduation, asks students to self-assess their level of competency at the time of admission to the University (entering) and at the time of graduation (exiting) in 18 KSAs.</p> <p><u>Type of Assessment:</u> Indirect; Internal; Summative</p> <p><u>Data Timeframe:</u> Academic Year (term aggregated data)</p>	<p>Over 80% of graduating seniors reported strong or somewhat strong competencies at the completion of their business curriculum in all of the five assessment cycles.</p> <p>Even though the outcome was met, speaking skills consistently obtained the lowest percentage of students reporting a strong/somewhat strong level of competency ranging from 85.2% in 2009 to 84.1% in 2013.</p> <p>At the program level, over 80% of graduating seniors in each program rated their exiting competency in major-specific knowledge as strong or somewhat strong, thus meeting the outcome.</p>	<p>Logistics & Supply Chain Management majors showed the highest increase in the percentage of students that rated a strong/somewhat strong competency in this KSA from 83.4% to 96.3% in 2012 and 2013, respectively. All other majors showed a decrease in the percentage of students rating this competency as strong.</p> <p>Although not statistically comparable (see note below), students' self assessment of the strength of their exiting competencies tends to be lower than their actual performance measured through evidence-based methods in all but one KSA element (knowledge).</p> <p><i>Note: The percentage of students rating their level of competency in the KSAs (self-assessment) via the GSES and the percentage of students who actually met the outcomes criteria via evidence-based not methods are not statistically comparable since GSES results only include graduating seniors.</i></p>	<p>Based on assessment results in 2011 regarding oral communication skills, faculty integrated additional oral presentations in selective courses resulting in a higher percentage of students reporting strong/somewhat strong competency, over 84% in 2012 and 2013 from slightly over 80% in 2011.</p> <p>Faculty will continue monitoring students self-assessment performance against aggregated data on actual performance measured through evidence-based methods. Please see Performance Measure 4-A.</p>	<p>College of Business Graduating Seniors Exiting Competency in Selected KSAs</p> <p>College of Business Graduating Seniors Improvement of Competency in Selected KSAs</p> <p>College of Business Graduating Seniors Exiting Competency in Major-Specific Knowledge</p>

5.E. Student Satisfaction with Instructor's use of technology will achieve a mean score of at least 4.0/5.0, being equal to or exceeding the institution's mean score.	<p>The Faculty Course Evaluation (FCE) survey, administered in every business course at the end of every semester, captures student input on 18 elements associated with instructional quality that includes instructional delivery, depth and relevance of the course material, instructor's approach to teaching, student engagement and participation in the course, and classroom support resources.</p> <p><u>Type of Assessment:</u> Indirect; Internal; Summative</p> <p><u>Data Timeframe:</u> Academic Year (term aggregated data)</p>	COB student satisfaction with the instructor's use of technology to support learning surpassed the expected target outcome, and exceeded the satisfaction of all students (institution).	Although student satisfaction with the instructor's use of technology exceeded the expected outcome, there was a slight decrease in satisfaction level (0.04) in 2013. Although this decrease was also reflected at the institutional level, possible actions for improvement will be discussed and acted accordingly by COB faculty if needed.	<p>Given that ratings may change between terms, there is a possibility that no specific action(s) will be taken at this time pending additional data from the Faculty Course Evaluation survey applied during the next three terms reflecting the entire academic year.</p> <p><i>Note: Currently, the Faculty Course Evaluation (FCE) is being reviewed and modifications to the questionnaire are expected. Target outcomes will be modified accordingly once the new instrument is approved.</i></p>	<div><p>Student Satisfaction with Instructor's Use of Technology</p><table><thead><tr><th>Year</th><th>College of Business</th><th>Institution</th></tr></thead><tbody><tr><td>2009</td><td>4.31</td><td>4.27</td></tr><tr><td>2010</td><td>4.31</td><td>4.26</td></tr><tr><td>2011</td><td>4.36</td><td>4.32</td></tr><tr><td>2012</td><td>4.36</td><td>4.28</td></tr><tr><td>2013</td><td>4.32</td><td>4.27</td></tr></tbody></table></div>	Year	College of Business	Institution	2009	4.31	4.27	2010	4.31	4.26	2011	4.36	4.32	2012	4.36	4.28	2013	4.32	4.27

5.F. Scholarly Contributions and Professional Activities metrics from COB faculty will indicate: a) at least 60% of FT faculty will be serving in advisory boards, councils or committees relevant to their fields b) at least 50% will have presented papers and publications in conference proceedings c) at least 40% will have publications in refereed journals	Scholarly Contributions and Professional Activities Report. <u>Type of Assessment:</u> Direct; Internal <u>Data Timeframe:</u> Academic Year <i>Note: Scholarly and professional work serve as one of several criteria in faculty annual evaluations by the Dean of the college and carry significant weight in decisions involving promotion as stipulated in Faculty Policies and Regulations.</i>	<p>The target outcome for COB scholarly and professional work from faculty was partially met for the assessment cycles of 2012 and 2013. Overall, twenty-six (26) faculty members or 96% of COB's FT faculty engaged in one or more scholarly activity and/or professional work outside the classroom during AY 2012 and AY 2013.</p> <p>Eight faculty members or 30% of COB FT faculty have produced work of high enough quality to earn acceptance for publication in refereed journals.</p> <p>Twenty-three (23) faculty members (85% of FT faculty) have been accepted for presentations and/or published in conference proceedings, a significant improvement in faculty's active participation in this type of activity during the last two years.</p> <p>During 2012 and 2013, 14 COB faculty members (52% of COB faculty) were involved in advisory duties through boards, councils, and external committees. This participation not only contributes to the economic and social development of local, regional, and/or state areas but also enhances teaching performance in the classroom through exposure to real-life business situations and problem-solving techniques.</p>	<p>Although there is no graduate business program offered at this time, the COB recognizes an obligation and dedication to the advancement of knowledge. Faculty are strongly encouraged to engage in scholarly and professional work outside the classroom aimed at (1) enhancing teaching, (2) increasing the visibility of the COB and its students, and (3) contributing to the business and economic development of the community.</p>	<p>As part of an institution-wide effort to "transition the academic culture to encompass research", the COB is currently evaluating additional strategies to encourage increased research productivity among faculty. Increasing the quality and amount of research-based activities among its faculty is one of the goals the COB has set for AY 2014 and beyond.</p> <p>A series of activities including research workshops, mentoring by experienced published faculty, and collaboration with Library personnel, are planned for 2014.</p>	<div><p>College of Business Full Time Faculty Involvement in Scholarly and Professional Work</p><table><caption>College of Business Full Time Faculty Involvement in Scholarly and Professional Work</caption><thead><tr><th>Category</th><th>2006-2011</th><th>2012-2013</th></tr></thead><tbody><tr><td>Serving on Advisory Boards, Councils & Committees</td><td>72%</td><td>52%</td></tr><tr><td>Published in Refereed Journals</td><td>36%</td><td>30%</td></tr><tr><td>Published in Conference Proceedings/Presentations</td><td>40%</td><td>85%</td></tr><tr><td>Other Activities</td><td>N/A</td><td>37%</td></tr></tbody></table></div>	Category	2006-2011	2012-2013	Serving on Advisory Boards, Councils & Committees	72%	52%	Published in Refereed Journals	36%	30%	Published in Conference Proceedings/Presentations	40%	85%	Other Activities	N/A	37%

Standard #6 Educational and Business Process Management

a. Curriculum

1. List any existing accredited degree programs/curricula that have been **substantially revised** since your last report and attach a Table - Standard 6, Criterion 6.1.3 – Undergraduate CPC Coverage for each program.

No substantial revisions have been made since the September 2012 report.

2. List any **new** degree programs that have been developed and attach a Table - Standard 6, Criterion 6.1.3 – Undergraduate CPC Coverage for each new program since your last report.

Three new minors/degree options were added:

Operations Management, effective Spring 2012.

Program Management, effective Spring 2012.

Assurance Management, effective Fall 2013.

See copies of degree requirements for all three new minors in **Appendix C**.

Note: If you have a new degree at a level currently accredited by ACBSP, then report information on: student enrollment, program objectives, instructional resources, facilities and equipment, admissions requirements, graduation statistics, core professional components (CPCs) and the outcomes assessment process to ACBSP. If the new degree is at a higher level than what is currently accredited, the school must complete a self-study to add the degree.

3. List any accredited programs that have been terminated since your last report.

No programs have been terminated.

6.A. Enrollment in business programs will increase 3% per year.	<i>Institutional Research Data Reports-Enrollment Statistics</i> <u>Type of Assessment:</u> Direct; Internal; Summative; Comparative <u>Data Timeframe:</u> Academic Year (term aggregated data)	<p>The College of Business has experienced sustained growth in enrollment during the last five years.</p> <p>Between 2009 and 2013, enrollment grew 18.4%, far exceeding the institution's enrollment growth. With an increase of 3.9% in 2013, the average annual growth during the last three-years was 2.7%.</p> <p>COB headcount in 2013 comprised 38.4% of institutional headcount (N=4,625) enrollment, up from 33.7% two years earlier.</p> <p><i>Please refer to COB retention and graduation outcomes under Performance Measure 6.B.</i></p>	<p>Further analysis of enrollment data shows that such growth has been the result of the following factors:</p> <p>(1) continuous availability of multiple methods of instructional delivery formats (face-to-face, online, and blended courses),</p> <p>(2) varied course scheduling to include day, evening and weekend classes, and</p> <p>(3) the implementation of three new programs (ACM, ESM, and LSM) in Spring 2011, highly aligned to the local economy and job market conditions.</p>	<p>The COB is focused on managing growth effectively in order to maintain a stable enrollment environment with a focus on balancing such factors as academic programs development, faculty development, and academic and retention policies and procedures consistent with available fiscal and instructional resources.</p> <p>Following an enrollment growth rate of over 28% over a four-year period (2007-2010), the annual growth goal was adjusted downward to 3% per year. This revised goal better reflects available faculty and instructional resources and maintains an adequate Student-to-Faculty ratio. (Please see Performance Measure 6.D.)</p>	<div><p>College of Business Enrollment and Graduation</p><table border="1"><thead><tr><th>Year</th><th>Headcount Enrollment</th><th>Number of Graduates</th></tr></thead><tbody><tr><td>2009</td><td>1501</td><td>280</td></tr><tr><td>2010</td><td>1642</td><td>299</td></tr><tr><td>2011</td><td>1678</td><td>356</td></tr><tr><td>2012</td><td>1711</td><td>350</td></tr><tr><td>2013</td><td>1777</td><td>265</td></tr></tbody></table><p>Revised</p><p><i>Data does not include Summer 2013 graduates.</i></p></div> <div><p>College of Business Comparative Enrollment Trend</p><table border="1"><thead><tr><th>Year</th><th>College of Business (%)</th><th>Institution (%)</th></tr></thead><tbody><tr><td>2008-2009</td><td>9.6%</td><td>5.3%</td></tr><tr><td>2009-2010</td><td>9.4%</td><td>5.5%</td></tr><tr><td>2010-2011</td><td>2.2%</td><td>-3.0%</td></tr><tr><td>2011-2012</td><td>2.0%</td><td>-4.2%</td></tr><tr><td>2012-2013</td><td>3.9%</td><td>1.0%</td></tr></tbody></table></div> <div><p>College of Business Enrollment By Program</p><table border="1"><thead><tr><th>Year</th><th>Accounting</th><th>Acquisition & Contract Mgmt</th><th>Enterprise Systems Mgmt</th><th>Human Resource Mgmt</th><th>Logistics & Supply Chain Mgmt</th><th>Management</th><th>Management of Technology</th></tr></thead><tbody><tr><td>2009</td><td>387</td><td>181</td><td>270</td><td>181</td><td>0</td><td>663</td><td>0</td></tr><tr><td>2010</td><td>425</td><td>161</td><td>263</td><td>161</td><td>40</td><td>661</td><td>11</td></tr><tr><td>2011</td><td>430</td><td>146</td><td>225</td><td>146</td><td>104</td><td>611</td><td>23</td></tr><tr><td>2012</td><td>445</td><td>187</td><td>167</td><td>167</td><td>136</td><td>573</td><td>25</td></tr><tr><td>2013</td><td>471</td><td>221</td><td>160</td><td>160</td><td>152</td><td>578</td><td>26</td></tr></tbody></table></div>	Year	Headcount Enrollment	Number of Graduates	2009	1501	280	2010	1642	299	2011	1678	356	2012	1711	350	2013	1777	265	Year	College of Business (%)	Institution (%)	2008-2009	9.6%	5.3%	2009-2010	9.4%	5.5%	2010-2011	2.2%	-3.0%	2011-2012	2.0%	-4.2%	2012-2013	3.9%	1.0%	Year	Accounting	Acquisition & Contract Mgmt	Enterprise Systems Mgmt	Human Resource Mgmt	Logistics & Supply Chain Mgmt	Management	Management of Technology	2009	387	181	270	181	0	663	0	2010	425	161	263	161	40	661	11	2011	430	146	225	146	104	611	23	2012	445	187	167	167	136	573	25	2013	471	221	160	160	152	578	26

Standard #6 Organizational Performance Results

ANALYSIS OF RESULTS																																																		
Performance Measure	Measurement Instrument or Process	Current Results	Analysis of Results	Action Taken or Improvement Made	Insert Graphs or Tables of Resulting Trends																																													
<p>6.B. Business programs will achieve:</p> <p>a) a retention rate (Fall-to-Fall) of 70% or greater one year after admission to the college</p> <p>b) a persistence rate (Fall-to-Spring) of 80% or greater</p> <p>c) a graduation rate of 45% by the 3rd year of attendance</p> <p>d) degree completers totaling at least 30 graduates annually from each one of the seven majors.</p> <p><i>Note: Given the upper-undergraduate level status of Athens State University, all students are admitted as juniors, having completed their first two years of college at other accredited institutions. Over 60% of business students attend school on a part-time basis. This perspective is important when making interpretations of retention and graduation rates.</i></p>	<p><i>Institutional Research Data Records-Retention, Persistence, and Graduation Statistics</i></p> <p><u>Type of Assessment:</u> Direct; Internal; Summative; Comparative</p> <p><u>Data Timeframe:</u> Term-Fall-Retention & Graduation Rates; Fall to Spring Persistence Rate; All Terms-Degrees Awarded Headcount)</p>	<p>(a) For degree-seeking business students entering the university in Fall 2012, the one-year retention rate exceeded the 70% goal by 2.9 percentage points, following slightly lower rates during the previous three years which ranged from 66% to 68%).</p> <p>The two-year retention rate for Fall 2011 increased 3.5 percentage points from slightly over 46% in the previous two Fall terms.</p> <p>As expected, first-year retention rates for full-time students are typically higher than those of part-time students. For students entering the university in Fall 2011, the full-time student retention rate was slightly under 71% compared to the 63% rate for part-time students.</p> <p>(b) The persistence rate for business students shows a pattern of stability at close to 85% in all of the last 3 years.</p>	<p>College of Business one-year retention rate is consistent with that of the institution, falling within 0.55 percentage points for Fall 2011.</p> <p>Although two-year retention rate at the institutional level was 3.9 percentage points higher than that of the COB (53.45 and 49.53, respectively) for the same period, the rate of increase in the retention rate from Fall 2010 was higher for the COB than for the institution (3.45 and 0.62 percentage points, respectively).</p> <p><i>Note: The calculated retention rates are likely lower than the actual rates since they are based on Fall enrollment only. To account for students who may take off a semester and then return, the number of students enrolled in an academic year (excluding those that graduated that year) was compared to the number of enrolled students (excluding new students) the following year.</i></p> <p>The Persistence Rate for the College of Business has consistently exceeded that of the institution during the last four academic years.</p>	<p>Following the implementation of the Enrollment Management Plan, significant efforts to improve the student advising function are being pursued, including increased faculty interaction with newly admitted students, earlier attempts to identify at-risk students and reasons behind non-returning students.</p> <p>As a facilitating tool, the University has acquired a new software program <i>Degree Works</i>, scheduled for implementation in AY 2014.</p> <p>Given the unique nature of the University as an upper-level undergraduate institution and the high percentage of students attending school on a part time basis, the use of typical retention formulas mostly based on an entering freshman class may not be the most appropriate mechanism.</p> <p>Accordingly, the Office of Institutional Planning, Research and Assessment through the Office of the Provost/VP Academic Affairs and the Office of VP for Enrollment and Student Services, in coordination with all three colleges, continue to work on ways to develop and expand an analytical framework suited for this type of institution.</p>	<div><p>College of Business Students Retention Rate</p><table><caption>College of Business Students Retention Rate</caption><thead><tr><th>Year</th><th>Retention-1 year</th><th>Retention-2 year</th></tr></thead><tbody><tr><td>Fall 2007</td><td>70.07%</td><td>51.47%</td></tr><tr><td>Fall 2008</td><td>71.06%</td><td>53.26%</td></tr><tr><td>Fall 2009</td><td>67.67%</td><td>46.50%</td></tr><tr><td>Fall 2010</td><td>66.79%</td><td>46.08%</td></tr><tr><td>Fall 2011</td><td>66.43%</td><td>49.53%</td></tr><tr><td>Fall 2012</td><td>72.86%</td><td>0.00%</td></tr></tbody></table></div> <div><p>College of Business Students Retention Rate by Enrollment Status</p><table><caption>College of Business Students Retention Rate by Enrollment Status</caption><thead><tr><th>Start Year</th><th>Full Time - 1 year retention</th><th>Part Time - 1 year retention</th></tr></thead><tbody><tr><td>Start Year 2010</td><td>72.79%</td><td>60.87%</td></tr><tr><td>Start Year 2011</td><td>70.68%</td><td>62.59%</td></tr></tbody></table></div> <div><p>College of Business Students Persistence Rate</p><table><caption>College of Business Students Persistence Rate</caption><thead><tr><th>Period</th><th>College of Business</th><th>Institution</th></tr></thead><tbody><tr><td>Fall 2009 to Spring 2010</td><td>83.04%</td><td>81.15%</td></tr><tr><td>Fall 2010 to Spring 2011</td><td>84.51%</td><td>82.38%</td></tr><tr><td>Fall 2011 to Spring 2012</td><td>84.98%</td><td>83.78%</td></tr><tr><td>Fall 2012 to Spring 2013</td><td>84.95%</td><td>81.86%</td></tr></tbody></table></div>	Year	Retention-1 year	Retention-2 year	Fall 2007	70.07%	51.47%	Fall 2008	71.06%	53.26%	Fall 2009	67.67%	46.50%	Fall 2010	66.79%	46.08%	Fall 2011	66.43%	49.53%	Fall 2012	72.86%	0.00%	Start Year	Full Time - 1 year retention	Part Time - 1 year retention	Start Year 2010	72.79%	60.87%	Start Year 2011	70.68%	62.59%	Period	College of Business	Institution	Fall 2009 to Spring 2010	83.04%	81.15%	Fall 2010 to Spring 2011	84.51%	82.38%	Fall 2011 to Spring 2012	84.98%	83.78%	Fall 2012 to Spring 2013	84.95%	81.86%

6.B. (continued)		<p>(c) The three-year (150% rule as applied to the upper undergraduate level) graduation rate for degree-seeking business students entering the university in academic years 2007-2010 (Fall terms) ranged from 41% to 45%, slightly under target.</p> <p>From Fall 2009 through Spring 2013 (Summer 2013 graduates not included), the annual number of graduates from four of seven business programs ranged from 33 to 87, meeting the target of at least 30 graduates per year. As expected, only the three programs initiated in Spring 2011 (ACM, ESM, and LSM) showed fewer graduates per year ranging from 4 to 25, although aggregate number of graduates through Spring 2013 shows a strong trend.</p> <p>Given the increase in enrollment in these programs since their inception, it is expected that their number of graduates will meet the minimum target outcome of 30 students.</p>	<p>Following a decreasing trend, the three-year grad rates for full-time COB students entering in academic years 2010 (Fall terms) increased by 3.47 percentage points from those entering the previous Fall. Although there is no conclusive data identifying the specific factors behind the decrease in graduation rates during 2008 and 2009, the findings are not unique to the COB or the University, as institutions across the board continue to address declining graduation rates.</p> <p>Further analysis is ongoing to validate whether the graduation rate increase of students entering in Fall 2010 will hold and/or whether consecutive tuition increases, combined with the substantial number of business students attending school part-time and enhanced efforts to retain students, are having an impact on graduation rates.</p>		<div><div><div>College of Business Graduation Rates</div><table><tr><th rowspan="2">Start Term</th><th colspan="6">Graduation Rate (%)</th></tr><tr><th>1 Year</th><th>2 Year</th><th>3 Year</th><th>4 Year</th><th>5 Year</th><th>6 Year</th></tr><tr><td>Fall 2007</td><td>0.00</td><td>25.55</td><td>44.53</td><td>54.74</td><td>59.49</td><td>60.95</td></tr><tr><td>Fall 2008</td><td>0.00</td><td>21.70</td><td>42.98</td><td>51.91</td><td>57.02</td><td>N/A</td></tr><tr><td>Fall 2009</td><td>0.66</td><td>19.54</td><td>40.73</td><td>46.36</td><td>N/A</td><td>N/A</td></tr><tr><td>Fall 2010</td><td>0.72</td><td>26.09</td><td>44.20</td><td>N/A</td><td>N/A</td><td>N/A</td></tr><tr><td>Fall 2011</td><td>0.36</td><td>23.84</td><td>N/A</td><td>N/A</td><td>N/A</td><td>N/A</td></tr><tr><td>Fall 2012</td><td>0.00</td><td>N/A</td><td>N/A</td><td>N/A</td><td>N/A</td><td>N/A</td></tr></table></div><div><div>College of Business Graduates by Program</div></div></div>	Start Term	Graduation Rate (%)						1 Year	2 Year	3 Year	4 Year	5 Year	6 Year	Fall 2007	0.00	25.55	44.53	54.74	59.49	60.95	Fall 2008	0.00	21.70	42.98	51.91	57.02	N/A	Fall 2009	0.66	19.54	40.73	46.36	N/A	N/A	Fall 2010	0.72	26.09	44.20	N/A	N/A	N/A	Fall 2011	0.36	23.84	N/A	N/A	N/A	N/A	Fall 2012	0.00	N/A	N/A	N/A	N/A	N/A

6.C. The College of Business will meet students' needs for course schedule flexibility via multiple formats of instructional delivery, particularly distance learning (DL).	<u>Institutional Research Data Reports- Course/Class Schedules</u> <u>Type of Assessment:</u> Direct; Internal; Summative <u>Data Timeframe:</u> Academic Year (term aggregated data)	<p>Enrollment of business students in online courses has risen consistently throughout the 5-Yr assessment cycles.</p> <p>Accordingly, online offerings have been expanded consistently, comprising 79.4% of total class offering (DL and Non-DL) in 2013. (Distance learning designation includes blended and internet courses.)</p> <p>Overall, 96% of business students took at least one online course during Fall 2013, up from 94% in Fall 2011, while 72% took all DL classes during Fall 2013, up from 68% in Fall 2011.</p>	<p>The COB's strategic decision to expand the offering of online courses is consistent with enrollment patterns.</p> <p>In the three-year period 2011 to 2013, the number of students taking at least one online course increased by 7.8%, while the number of students taking all courses online increased by 12.1%.</p> <p>The number of business students taking all DL classes to date grew 20.9% from Fall 2009 to Fall 2013.</p> <p>The number of graduates who took all courses through DL ranged from 20% to 55% depending on major.</p>	<p>Recognizing the importance of meeting student demand for instructional delivery in alternative formats, all seven academic degree programs in the COB offer courses in face-to-face, blended, and fully online formats.</p> <p>The COB continues monitoring student demand for online courses and will make appropriate adjustments as needed.</p> <p>Careful planning of course schedules to achieve the optimum balance among instructional delivery formats will remain as demand for online courses is expected to stabilize in the next few years.</p>	<div><p>College of Business Class Offerings DL & Non-DL</p><table border="1"><caption>College of Business Class Offerings DL & Non-DL</caption><thead><tr><th>Year</th><th>Non DL Classes</th><th>DL Classes</th><th>Total # of Classes</th><th>DL Percent of Total</th></tr></thead><tbody><tr><td>2009</td><td>349</td><td>96</td><td>445</td><td>21.6%</td></tr><tr><td>2010</td><td>372</td><td>115</td><td>487</td><td>23.6%</td></tr><tr><td>2011</td><td>415</td><td>130</td><td>545</td><td>23.9%</td></tr><tr><td>2012</td><td>426</td><td>130</td><td>556</td><td>23.4%</td></tr><tr><td>2013</td><td>483</td><td>125</td><td>608</td><td>20.4%</td></tr></tbody></table><p>Revised</p></div> <div><p>College of Business Students and DL Classes</p><table border="1"><caption>College of Business Students and DL Classes</caption><thead><tr><th>Year</th><th>Total COB Enrolled Majors</th><th>Taking at least one DL Class</th><th>Taking all DL Classes</th><th>Taking all DL Classes to Date</th></tr></thead><tbody><tr><td>Fall 2009</td><td>1,126</td><td>1,066</td><td>812</td><td>604</td></tr><tr><td>Fall 2010</td><td>1,174</td><td>1,098</td><td>827</td><td>626</td></tr><tr><td>Fall 2011</td><td>1,283</td><td>1,212</td><td>868</td><td>642</td></tr><tr><td>Fall 2012</td><td>1,298</td><td>1,236</td><td>874</td><td>653</td></tr><tr><td>Fall 2013</td><td>1,360</td><td>1,306</td><td>973</td><td>730</td></tr></tbody></table><p>Revised</p></div> <div><p>College of Business Graduates Completing Program with All DL Courses</p><table border="1"><caption>College of Business Graduates Completing Program with All DL Courses</caption><thead><tr><th>Year</th><th>Accounting</th><th>ACM</th><th>ESM</th><th>HRM</th><th>LSM</th><th>Management</th><th>Mgmt of Technology</th><th>College of Business</th></tr></thead><tbody><tr><td>2009</td><td>27%</td><td>39%</td><td>31%</td><td>27%</td><td>10%</td><td>0%</td><td>0%</td><td>0%</td></tr><tr><td>2010</td><td>35%</td><td>45%</td><td>39%</td><td>22%</td><td>0%</td><td>0%</td><td>0%</td><td>0%</td></tr><tr><td>2011</td><td>32%</td><td>39%</td><td>33%</td><td>34%</td><td>0%</td><td>0%</td><td>0%</td><td>0%</td></tr><tr><td>2012</td><td>43%</td><td>41%</td><td>35%</td><td>34%</td><td>0%</td><td>0%</td><td>0%</td><td>0%</td></tr><tr><td>2013*</td><td>41%</td><td>50%</td><td>36%</td><td>28%</td><td>0%</td><td>0%</td><td>0%</td><td>0%</td></tr></tbody></table><p>*2013 only includes Fall and Spring Graduates</p></div>	Year	Non DL Classes	DL Classes	Total # of Classes	DL Percent of Total	2009	349	96	445	21.6%	2010	372	115	487	23.6%	2011	415	130	545	23.9%	2012	426	130	556	23.4%	2013	483	125	608	20.4%	Year	Total COB Enrolled Majors	Taking at least one DL Class	Taking all DL Classes	Taking all DL Classes to Date	Fall 2009	1,126	1,066	812	604	Fall 2010	1,174	1,098	827	626	Fall 2011	1,283	1,212	868	642	Fall 2012	1,298	1,236	874	653	Fall 2013	1,360	1,306	973	730	Year	Accounting	ACM	ESM	HRM	LSM	Management	Mgmt of Technology	College of Business	2009	27%	39%	31%	27%	10%	0%	0%	0%	2010	35%	45%	39%	22%	0%	0%	0%	0%	2011	32%	39%	33%	34%	0%	0%	0%	0%	2012	43%	41%	35%	34%	0%	0%	0%	0%	2013*	41%	50%	36%	28%	0%	0%	0%	0%

<u>Media Survey</u> , a comprehensive survey administered once a year, aimed at identifying media exposure and use, and captures, among other things, factors influencing the decision to attend Athens State. <u>Type of Assessment:</u> Indirect; Internal; Summative <u>Data Timeframe:</u> Annual during Spring Term	<p>Results from the <i>Media Survey</i> indicate that the availability of online courses and the flexibility of class schedules are major factors influencing the decision to attend Athens State University among business students.</p> <p>Although slightly lower than in previous years, over two-thirds of business students rate the availability of online courses as high or somewhat high, a decrease of 8.3 percentage points from 2012 importance level. Over three-fourths of those same students give the same rate to the flexibility of class schedules, an increase of 4.2 percentage points over 2012 level.</p>	<p>Throughout the 2009 through 2012 assessment cycles, business students consistently exceeded the institution (all students) in the importance to them of online availability as a determining factor of attendance.</p> <p>Further analysis of the survey data suggests that as the DL program enters a maturity stage, together with aggressive marketing communications focusing on the availability of online education, students have come to expect that such course formats will be available.</p>	<p>Given the increasing enrollment in DL courses among business students, no specific action is needed at this time. The COB will continue monitoring data that identifies attendance determinant factors as part of its enrollment growth strategy and the scheduling of courses.</p>	<div><p>Importance of Distance Learning</p><table><tr><th>Students: College of Business and Institution</th><th>COB</th><th>Institution</th></tr><tr><td>Availability of Online Courses</td><td>66.7%</td><td>70.4%</td></tr><tr><td>Flexibility of Class Schedules</td><td>76.9%</td><td>69.8%</td></tr></table></div>	Students: College of Business and Institution	COB	Institution	Availability of Online Courses	66.7%	70.4%	Flexibility of Class Schedules	76.9%	69.8%

6.E. Growth in the credit hour production of business programs will be comparable to the overall institutional performance.	Institutional Research Data Reports-Credit Hour Production Trend <u>Type of Assessment:</u> Direct; Internal; Summative; Comparative <u>Data Timeframe:</u> Academic Year (term aggregated data)	COB credit hour production grew an average of 5.5% annually during the 5-year assessment cycles (2009-2013). The percent of growth in credit hour production for the COB for the 5-year period 2009-2013 is 30.5% compared to 7.1% for the institution.	While the institution experienced a decline in credit hour production during the last three years, the COB continued to grow although at a lower rate. Following a decrease of 4.26 percentage points in 2012, credit hour production in the COB grew by 1.62 percentage points in 2013.	No action is required at this time, although the COB continues to monitor its growth to ensure the availability of resources to maintain the academic quality of its programs. Please see Performance Measure 6.A.	<div><p>College of Business and Institution Percent Growth in Credit Hour Production</p><table border="1"><caption>College of Business and Institution Percent Growth in Credit Hour Production</caption><thead><tr><th>Period</th><th>College of Business (%)</th><th>Institution (%)</th></tr></thead><tbody><tr><td>2008-2009</td><td>7.31%</td><td>6.06%</td></tr><tr><td>2009-2010</td><td>9.85%</td><td>8.15%</td></tr><tr><td>2010-2011</td><td>5.76%</td><td>-0.64%</td></tr><tr><td>2011-2012</td><td>1.50%</td><td>-4.88%</td></tr><tr><td>2012-2013</td><td>3.12%</td><td>-1.24%</td></tr><tr><td>2008-2013 (Entire Period)</td><td>30.50%</td><td>7.07%</td></tr></tbody></table></div>	Period	College of Business (%)	Institution (%)	2008-2009	7.31%	6.06%	2009-2010	9.85%	8.15%	2010-2011	5.76%	-0.64%	2011-2012	1.50%	-4.88%	2012-2013	3.12%	-1.24%	2008-2013 (Entire Period)	30.50%	7.07%

6.F. The College of Business seeks to insure that an increasing percentage of faculty hold appropriate terminal degrees.	Institutional Research Data Records-Faculty Qualifications Statistics <u>Type of Assessment:</u> Direct; Internal; Summative <u>Data Timeframe:</u> Fall Term (data is reported based on the highest degree obtained by individual faculty as of start of the academic year).	The COB continues its efforts to increase the percentage of faculty with terminal degrees. Currently 57% of the COB faculty holds a terminal degree, and 100% of COB faculty are professionally qualified evidenced by their substantive industry and business experience in their teaching field.	As of Spring 2013, five (5) additional faculty members have completed all coursework toward their doctoral degrees achieving ABD status and are at different stages of completion of their respective dissertations.	As a major organizational priority, the College of Business remains fully committed in its support of faculty pursuing terminal degrees. As part of an institution-wide effort, criteria for faculty searches have been revised to focus more aggressively on candidates who already hold the Ph. D. degree, are already fully engaged in their respective program (ABD), or are near completion.	<div><p>College of Business Faculty by Degree and Rank</p><table border="1"><thead><tr><th rowspan="2">College of Business Faculty</th><th colspan="2">Fall 2011</th><th colspan="2">Fall 2012</th><th colspan="2">Fall 2013</th></tr><tr><th>#</th><th>%</th><th>#</th><th>%</th><th>#</th><th>%</th></tr></thead><tbody><tr><td>Highest Degree:</td><td></td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>Terminal</td><td>14</td><td>55%</td><td>15</td><td>56%</td><td>16</td><td>57%</td></tr><tr><td>Master's</td><td>12</td><td>45%</td><td>12</td><td>44%</td><td>12</td><td>43%</td></tr><tr><td>Rank:</td><td></td><td></td><td></td><td></td><td></td><td></td></tr><tr><td>Professor</td><td>5</td><td>19%</td><td>5</td><td>19%</td><td>5</td><td>18%</td></tr><tr><td>Associate Professor</td><td>6</td><td>23%</td><td>8</td><td>30%</td><td>9</td><td>32%</td></tr><tr><td>Assistant Professor</td><td>15</td><td>58%</td><td>14</td><td>52%</td><td>14</td><td>50%</td></tr></tbody></table></div>	College of Business Faculty	Fall 2011		Fall 2012		Fall 2013		#	%	#	%	#	%	Highest Degree:							Terminal	14	55%	15	56%	16	57%	Master's	12	45%	12	44%	12	43%	Rank:							Professor	5	19%	5	19%	5	18%	Associate Professor	6	23%	8	30%	9	32%	Assistant Professor	15	58%	14	52%	14	50%

6.1. The College of Business will provide students with extracurricular opportunities to: recognize academic achievement, enhance leadership and service skills, and enhance classroom learning through internships and cooperative education	Membership records from ASU student chapters of Delta Mu Delta Business Honor Society and the Institute of Management Accountants (IMA) <u>Type of Assessment:</u> Direct; Internal <u>Data Timeframe:</u> Academic Year	The number of students demonstrating superior scholastic achievement has gone up during the last three years, evidenced by a 16.1% increase in the number of inductees into the Delta Mu Delta Honor Society between 2009 and 2011. In addition, eleven faculty and staff members have been installed as Honorary Inductees between 2009 and 2013.	The increase in enrollment in online courses, mostly the result of changing demographics, presents a major challenge in getting students to join student organizations and/or participate in extracurricular activities. In addition, slightly over 60% of business students attend school on a part-time basis due to work and/or family obligations, limiting their availability for extracurricular activities.	The COB, in coordination with the Office of Student Activities is looking into innovative ways to attract student participation and membership in extracurricular activities and develop better methodology to track these outcomes.	<div>Business Honor Society Inductees Delta Mu Delta</div>  <table border="1"><thead><tr><th>Year</th><th>Student Inductees</th><th>Honorary Inductees</th><th>Total Inductees</th></tr></thead><tbody><tr><td>2009</td><td>63</td><td>1</td><td>62</td></tr><tr><td>2010</td><td>72</td><td>3</td><td>69</td></tr><tr><td>2011</td><td>75</td><td>3</td><td>72</td></tr><tr><td>2012</td><td>50</td><td>2</td><td>48</td></tr><tr><td>2013</td><td>74</td><td>2</td><td>72</td></tr></tbody></table>	Year	Student Inductees	Honorary Inductees	Total Inductees	2009	63	1	62	2010	72	3	69	2011	75	3	72	2012	50	2	48	2013	74	2	72

¹ MG 480 is a 2 semester hour course ; all other CPC courses are 3 semester hours.

¹All CPC courses, with the exception of MG 480, are 3-semester-hour courses. MG 480 is a 1-semester hour course, and is a key component in the assessment of business programs and of student achievement in the areas of communication and professionalism. It provides the "post" assessment writing sample for comparison with the "pre" assessment writing sample done in a course taken in the student's first term (MG 320 Organizational Communication). It provides an opportunity for students to demonstrate proficiency in oral and written communication, to better prepare for graduate school and the job search process, and to achieve an acceptable score on the Assessment Exam.

College of Business 2012-13 Strategic Plan Progress Report

COLLEGE OF BUSINESS

STRATEGIC PLAN PROGRESS REPORT 2012-2013

September 2013

Goal I. Athens State University will increase its recognition as the institution of choice for students with life experience, transfer students, especially from community colleges, and working students who seek a step into success.

Objective I.A: The College of Business will add at least one program of study (minor, concentration or major) based on local and/or regional need and the institutional mission.

Created a <i>Business Research Journal</i> featuring student and faculty articles on economic development, business research, and general business topics. First issue was published in Spring 2013. Began publication of the <i>Economic Newsletter</i>, an electronic newsletter published bi-annually and distributed via e-mail to registered recipients. 	<ul style="list-style-type: none"> Expand editorial content by extending publishing invitations to company executives and business and government leaders in the area.

Appendix B

Institutional Effectiveness: Use of Assessment Findings for Continuous Improvement

APPENDIX B

Institutional Effectiveness: Use of Assessment Findings for Continuous Improvement

The College of Business has realized documented improvement in the area of outcomes assessment and the use of data findings to exert program changes. Pursuant to the formulation of the *Institutional Outcomes Assessment Policy 1600-0900*, in effect since January 2007, the COB has implemented a systematic and comprehensive process for assessing student learning and organizational performance, reporting results, and documenting corrective actions to address identified weaknesses.

Following the thorough analysis of assessment data conducive to the identification of weak areas, business programs plan and implement strategies to improve student learning (learning outcomes) and related administrative processes supporting organizational performance of the College of Business. Pursuant to the *Athens State University Outcomes Assessment System*, program changes based on assessment findings are assigned to one of nine categories as shown on the table¹ below:

ACADEMIC PROGRAMS			ADMINISTRATIVE & STUDENT SUPPORT ORGANIZATIONAL UNITS	
CODE	DESCRIPTION		CODE	DESCRIPTION
1	Curricular Change	Modification to the curriculum of a degree program such as adding/deleting a course(s), adding/eliminating a requirement(s), or changing course(s) sequence.	A	Revised Service
2	Course Revision	Revision of an existing course(s) that resulted in modifications such as adding/eliminating or changing an assignment(s), modifying course(s) content, and changing textbook and materials.	B	Revised Administrative Process
3	Pedagogy	Modification of course delivery methodology such as lecture time, student participation and involvement, and integrated technology.	C	Implemented New Process
4	Assessment Methodology Revision	Revision of assessment methodology that resulted in modification or substitution of assessment methods, tools, instruments, and data analysis.	D	Changed Assessment Methodology
5	Target Outcome Modification	Modification to operational definition and metrics of expected performance (criteria for success) .	E	Changed Target Outcome
6	Program Operations Revision	Revision of educational management processes such as hiring new and adjunct faculty, assigning faculty loads, changing entrance requirements, changing timelines for faculty evaluations	F	Implemented New Policy
7	Budget Request (Additional)	Requested additional fiscal resources.	G	Requested Additional Budget
8	Training/Professional Development	Implemented faculty development or training.	H	Developed Training
9	Other	Other uses of assessment results not described above.	I	Other

¹ Adapted with permission: Marry Harrington, Director of Institutional Research and Assessment, 2008, *Compiling a Comprehensive, Clear, and Convincing Body of Evidence for Institutional Effectiveness* (CS 3.3.1), University of Mississippi, SACS/COC Annual Meeting.

Since 2007, based on findings of the outcomes assessment process, the COB has implemented corrective actions aimed at addressing identified weaknesses in student performance. With some data variations among annual assessment cycles, the following is a selected list of program changes and resulting improvement for the 5-year period of 2008 through 2013.

- **Curricular changes** involving the addition/deletion and/or replacements of courses to better reflect necessary knowledge, skills and abilities and increase student exposure to contemporary business issues and job market demands.
 - Added MG 480 *Seminar in Business* (Capstone) to the curriculum to strengthen written/oral communication and interviewing skills and increased course credits to 2 semester hours to accommodate added course requirements.
 - **Documented Improvement:**
 - Student achievement regarding proficiency in written and oral communication², measured through evidence-based methods of assessment, increased by 5 percentage points from 90% in 2009 to 95% in 2012 (90% in 2013³) and 8 percentage points from 88% in 2009 to 96% in 2013, for written and oral communication, respectively;
 - The percent of graduating seniors reporting “strong” or “somewhat strong” exiting speaking and writing skills remained strong at 85% and 88%, respectively, between 2008 and 2013.
 - Mean score of graduates’ effectiveness ratings of their written and oral communication skills related to job performance increased from 4.25 in 2009 to 4.48 in 2011.
 - Added AC 442 *Advanced Auditing & Fraud*; GBA 312 *Law for Accountants*⁴; GBA 314 *Business Ethics* to increase student opportunities to reflect on the importance of maintaining ethical standards in business and society in general.
 - **Documented Improvement:**
 - Student achievement regarding appreciation and understanding of ethical standards, measured through evidence-based methods of assessment increased by four percentage points from 92% in 2009 to 96% in 2013;
 - The percent of graduating seniors reporting “strong” or “somewhat strong” exiting competency regarding appreciation and understanding of ethical standards increased from 88.1% in 2008 to 91.4% in 2013.
 - Added MG 370 *Performance Management* to the Human Resources curriculum consistent with guidelines from the Society for Human Resource Management (SHRM).
 - **Documented Improvement:**
 - HRM program gained recognition as a preferred national program by the SHRM.

² Improving written and oral communication skills has been a major focus of the learning outcomes in the institution (QEP) and the COB. Accordingly, improvements in students’ writing and oral presentation skills are most likely the result of combined revisions in many courses throughout the curricula and not the direct result of a sole course of action.

³ A new assessment instrument, the *College Level Writing Rubric* was used in 2013.

⁴ GBA 312 was changed to AC 312 in April, 2009.

- Over 88% of HRM majors showed improved scores in the Post Test HRM Assessment Exam an average of 269 points (max score=2250).
- **Course revisions** which strengthened and/or expanded coverage of specific business topics and/or skills in existing courses
 - Integrated computer simulation and course projects to improve on students' use of technology in business applications in the following courses: MG 302 *Management Information Systems*⁵, MG 303 *Management Decision Support Systems*⁶, MG 350 *Financial Management*, AC 325 *Accounting Information Systems*⁷, and MG 420 *Business Policy (Capstone)*.
 - **Documented Improvement:**
 - Student achievement regarding proficiency in the use of technology, measured through evidence-based methods of assessment, increased by 16 percentage points from 81% to 97% of students meeting the outcomes criteria in 2009 to 2013, respectively;
 - The percent of graduating seniors reporting “strong” or “somewhat strong” exiting competency in technology proficiency increased from 87.5% in 2008 to 92.5% in 2013;
 - Mean score of graduates' effectiveness ratings of their computer proficiency related to job performance increased from 3.8 in 2009 to 4.1 in 2013.
 - A major paper focused on the complexities of global issues related to business and the economy was added to GBA/MG 352 *International Business* and EC 321 *Money and Banking*
 - **Documented Improvement:**
 - Student achievement regarding understanding of global issues as they relate to business, measured through evidence-based methods of assessment, increased from 83% in 2009 to 85% in 2013;
 - Close to 73% of students showed improvement in exit exam scores on topics related to global issues⁸;
 - The percent of graduating seniors reporting “strong” or “somewhat strong” exiting competency in their understanding of societal, cultural, and global differences increased from 83% in 2008 to 87.2% in 2013.
 - Increased the number of written assignments and oral presentations in all Common Professional Core (CPC) courses to improve written and oral communication skills.
 - **Documented Improvement:**
 - Student achievement regarding proficiency in written and oral communication, measured through evidence-based methods of assessment, increased by 5 percentage points from 90% in 2009 to 95% in 2012 (90% in 2013²) and 8 percentage points from 88% in 2009 to 96% in 2013, for written and oral communication, respectively;
 - The percent of graduating seniors reporting “strong” or “somewhat strong” exiting speaking and writing skills remained strong at 85% and 88%, respectively, between 2008 and 2013.

⁵ MG 302 was cross-listed with AC 302 in August, 2008.

⁶ MG 303 is cross-listed with AC 303.

⁷ AC 325 was dropped as a required course in the accounting major and replaced with AC/MG 302 Management Information Systems in August, 2008.

⁸ Based on the revised COB Assessment Exam featuring additional question items related to global issues implemented in Spring 2013.

- **Pedagogical modifications** which improved instruction delivery through expanded use and better integration of technological resources to enhance both the teaching and learning experience.
 - Effective Fall 2008, the COB integrated *LiveText®* in all Common Professional Core (CPC) courses improving the efficiency of student and faculty interaction regarding the submission and grading of course material and assignments.
 - **Documented Improvement:**
 - The electronic submission of course work and materials and the assessment capability of *LiveText®* has resulted in better and timely feedback between students and instructors.
 - Added a group work module to MG 420 *Business Policy (Capstone)* requiring students to “run a company” in groups of 3-4 people using a new software program called *CAPSIM®* and integrated *Wimba®*, *Tegrity®*, and other tools to facilitate and/or increase opportunities to work together and improve teamwork skills.
 - **Documented Improvement:**
 - The percent of graduating seniors reporting “strong” or “somewhat strong” exiting team work skills increased by slightly under 2 percentage points from 87.4% in 2008 to 89.3% in 2013;
 - Mean score of graduates’ effectiveness ratings of their ability to work with others related to job performance increased from 4.13 in 2009 to 4.31 in 2013.
 - Reinforced the use of case analysis and simulations as pedagogical tools to develop critical thinking and decision-making skills in the following courses: EC 321, MG 346, MG 350, MG 353, MG 390, MG 420 (Capstone), and MK 331.
 - **Documented Improvement:**
 - Student achievement regarding critical and analytical thinking skills, measured through evidence-based methods of assessment, increased by 6 percentage points from 85% in 2009 to 91% in 2013;
 - The percent of graduating seniors reporting “strong” or “somewhat strong” exiting critical/analytical skills increased slightly from 89% in 2008 to 90.1% in 2013;
 - Mean score of graduates’ effectiveness ratings of their critical thinking and problem-solving skills related to job performance remained high, although it showed a slight decrease from 4.31 in 2009 to 4.15 in 2013.
- **Reviews of assessment methodology** that resulted in better measurement instruments and tools and more efficient data collection and analysis processes
 - The integration of *LiveText®* and the development of new rubrics in all CPC courses improved considerably the efficiency in the assessment data collection, analysis, and reporting processes.
 - **Documented Improvement:**
 - Enhanced ability to evaluate student work from a variety of analytical frameworks ranging from individual performance to group comparisons, timeframes, and instructional delivery formats.
 - Developed and implemented protocols for the Pre and Post COB Exit Exam, given in MG 320 *Organizational Communication* (Pre) and in the capstone course MG 420 *Business Policy* (Post) that resulted in better tracking and understanding of entering and exiting student proficiency in specific business topics.
 - **Documented Improvement:** The benefits gained by the systematic application of pre-post tests have resulted in

- Increased ability to match business programs and institutional objectives,
 - Increased ability for faculty to formulate specific performance criteria in relation to the business curriculum;
 - Increased efficiency in comparing tests results against results obtained from other assessment methods,
 - Assist timely decision-making regarding potential changes to programs/courses based on findings from the pre tests.
- **Changes in the formulation of target outcomes** which expanded the scope of the assessment process to include both CPC and major-specific outcomes.
 - Formulated major-specific learning outcomes for each program.
 - **Documented Improvement:** A baseline of major-specific learning outcomes was established at the end of the 2013 assessment cycle.
 - Revised performance standard to 80% achievement in all learning outcomes.
 - **Documented Improvement:**
 - The revision of the performance standard to 80% (down from 90%) resulted from a comprehensive analysis of outcomes data from previous periods and ample deliberations by faculty who concluded that the 90% expectation across the board was somewhat unrealistic in the short term. Upward adjustments are to be revisited as program changes continue to be implemented and assessed.
 - Increased performance criteria for the COB Assessment Exam (CPC) to 35 points (70%) starting in 2014 following a 5-yr trend of successfully meeting the 30-point score target outcome.
- **Revision of program operations** which improved the effectiveness and efficiency of the administrative process related to faculty hiring, teaching loads, performance evaluations, professional development, academic advising, and course scheduling.
 - Integrated open discussions related to academic advising in faculty meetings aimed at identifying problems and finding ways to increase student satisfaction with faculty advising.
 - **Documented Improvement:**
 - Student satisfaction with the guidance provided by their faculty advisor increased by 6.7 percentage points from 71.9% in 2010 to 78.6% in 2013.
 - Instituted the Faculty Improvement Plan based on findings from the Faculty Course Evaluation regarding course quality and instructor's teaching effectiveness.
 - **Documented Improvement:**
 - Mean score of students' course quality ratings increased from 4.26 in 2010 to 4.36 in 2013 with 81% of respondents giving "high" or "somewhat high" ratings;
 - Mean scores of students' ratings of the instructor's teaching effectiveness showed a slight increase from 4.23 in 2010 to 4.30 in 2013 with 79% of respondents giving "high" or "somewhat high" ratings;
 - Over eighty-one percent (81.7%) of students indicated a "high" or "somewhat high" satisfaction with their instructors.

Appendix C

Degree Option/Minor Requirements:

- Operations Management
- Project Management
- Information Assurance

Information Assurance Management Minor

This minor is open to Management of Technology majors only. Please consult course descriptions for possible prerequisites.

	Course	Hours
	ISM 400 Information Management	3
	ISM 403 Data Communications Management	3
	ISM 404 Managing Information Resources	3
	IAM 409 Management of Information Assurance	3
	IAM 410 Information Assurance Administration and Operations Management	3
	IAM 411 Information Assurance Strategic Management	3
	Total Required Hours for Information Assurance Management Minor:	18

Operations Management Minor

This minor is open to Management of Technology majors only. Please consult course descriptions for possible prerequisites.

	Course	Hours
	MG 391 Fundamentals of Operations	3
	MG 393 Basics of Supply Chain	3
	MG 395 Master Planning of Resources	3
	MG 400 Detailed Scheduling & Planning	3
	MG 407 Execution & Control of Operations	3
	MG 409 Strategic Resources Planning	3
	Total Required Hours for Operations Management Minor:	18

Project Management Minor

This minor is open to Management of Technology majors only. Please consult course descriptions for possible prerequisites.

	Course	Hours
	MG 353 Project Management	3
	MG 357 Project Detailed Scheduling & Planning	3
	MG 405 Project Cost Control & Earned Value Mgmt.	3
	MG 430 Project Management Practicum	3
	Select 2 courses from the following: MG 358 Project Initiation & Scope Mgmt. MG 397 Program & Project Risk Mgmt. MG 413 Project Communication, Mgmt. & Leadership MG 414 PMP Certification Review	6
	Total Required Hours for Project Management Minor:	18
